

IS YOUR TURTLE...

- | | |
|--|---|
| ☐ Eating normally | ☐ Nose free of bubbles |
| ☐ Swimming normally | ☐ Breathing normally (no open-mouth breathing) |
| ☐ Basking every day | ☐ Skin free of wounds or swelling |
| ☐ Eyes open and clear | ☐ Passing normal poop |
| ☐ Shell firm (not soft) | ☐ Active and alert |

AQUARIUM CHECK

- | | |
|--|--|
| ☐ Water temperature correct | ☐ UVB lamp working |
| ☐ Heat lamp working | ☐ Filter running properly |
| ☐ Water looks clean | |

✗ SEEK HELP IF YOU NOTICE:

- | | |
|--|---------------------------|
| ● No food for 7+ days | ● Floating sideways |
| ● Eyes won't open | ● Soft shell |
| ● Heavy wheezing or open-mouth breathing | ● Blood or major injuries |

■ Remember

Small changes are often the first sign of illness. Catching them early can save your turtle's life.
