

Complete guide

The RED-EARED SLIDER Food Bible

60+ foods · age-based feeding plans · what to never feed your turtle

By Ramkumar K

@my.aame

Is your turtle eating wrong?

Most RES owners are. And they have no idea.

The 5 mistakes harming pet turtles in India right now:

- ✗ Feeding turtle sticks as the only food — every single day
 - ✗ Feeding spinach (palak) thinking it's healthy — it blocks calcium
 - ✗ Feeding adults daily — fatty liver disease develops silently
 - ✗ No cuttlebone or UVB — shell damage is irreversible once advanced
 - ✗ Using goldfish as feeder fish — destroys vitamin B1 over time
-

None of these are rare mistakes.

They are the default. Because no one tells turtle owners the truth.

This guide does.

After reading The RES Food Bible you will know:

- ✓ Exactly what to feed — by age, by season, by what's in your market
 - ✓ Which Indian kitchen foods are slowly harming your turtle
 - ✓ How to read your turtle's body for early warning signs
 - ✓ The only weekly meal plan your turtle will ever need
-

Turn the page.

41 pages. Zero filler.

Every page earns its place.

01

How your turtle's diet actually works

The one concept that changes everything — why age determines diet.

02

Age-based feeding plans

Hatchling · Juvenile · Adult. Exact ratios. Exact schedules. Zero guessing.

03

The A–Z food guide — 80+ foods

Every food rated Safe, Treat or Avoid. Indian names included.

04

Weekly meal plans

3 ready-made schedules. Pick your turtle's age and follow it. Done.

05

Danger foods + warning signs

Palak. Tamatar. Baingan. Neem. The Indian foods harming turtles daily.

06

Supplements + common mistakes

Calcium, UVB, cuttlebone — where to buy in India and how to use.

+ BONUS Quick reference cheat sheet

Everything at a glance. Safe foods. Toxic foods. Age ratios. Supplements.

80+ foods. Rated. Explained.

Including 35+ foods available in your local Indian market.

✓ SAFE

~ TREAT

✗ AVOID

✓ **Moringa / Drumstick leaves**
■■ Murungai keerai · Nutritional powerhouse

✓ **Banana flower**
■■ Vazhaipoo · Excellent calcium source

✓ **Collard greens**
Best staple leafy green globally

✓ **Hibiscus flower**
■■ Chemparuthi · Safe and turtles love it

~ **Fenugreek / Methi**
■■ Safe in small amounts only

~ **Bitter gourd / Karela**
■■ Occasional only · slice thin

✗ **Spinach / Palak**
■■ NEVER — blocks calcium absorption completely

✗ **Onion + Garlic**
■■ NEVER — toxic in all forms

✗ **Taro leaves / Arhi**
■■ NEVER — calcium oxalate crystals

... 70+ more foods in the full guide — prep tips · quantities · Indian names

Written for Indian turtle owners.

Every other guide was written for someone in the USA.

This one was written for you.

■ ■ 35+ Indian foods — with Tamil and Hindi names

Moringa, banana flower, banana stem, hibiscus, amaranth, pumpkin, ash gourd, ridge gourd, snake gourd and more. All rated. All explained.

■ Seasonal food guide for all 4 Indian seasons

What to buy in winter (sarson, methi), summer (lauki, petha), monsoon (pavakkai, poosanikai) and post-monsoon (chaulai, kamal).

■ ■ Indian danger foods — named clearly

Palak. Tamatar. Baingan. Matar. Band gobi. Arbi leaves. Neem. Foods from your own kitchen that are harming your turtle right now.

■ Where to buy supplements in India

Cuttlebone, calcium powder, UVB lamps — Amazon.in, Flipkart and local aquarium shops. Exact search terms included.

■ Reptile vets — city by city

Chennai. Mumbai. Bengaluru. Delhi. Hyderabad. Where to go and what to say when something goes wrong.

Stop guessing. Start knowing.

Everything inside the full 41-page guide:
